

Using Dynacolor's PDF Settings:

Program Requirements:

Distiller 3.0 or above.

Any other Layout program that accepts PDF Setting.

After downloading the settings, place them in the Distiller' Settings Folder .

These options are to be used when:

- 1) eProof: To send a Low-Res PDF File only for Monitor Viewing, or to print as a copy proof.
- 2) ePress: To send a Hi-Res PDF File that is Press ready.

Please refer to your program manuals for further information or go to Dynacolor's Tech Support Page @ <http://www.dynacolor.com/techassist.asp>
